# Printing Instructions

These instructions will help guide you to be able to send the 'print-ready' materials to a professional printer. They will also help you to have them printed at a similar quality to how they are provided in hard copy by SA Health.

To have the materials printed by a professional printer, please follow the instructions below:

1. Download the 'print-ready' version of the document you wish to have printed.
2. Contact a professional printer for a quote. Please include the quantity you wish to print and also provide the specifications below to allow for an accurate quote.
3. When you receive the quote, check all requirements of the printer before approval.
4. Provide the downloaded document to the printer for printing.

Below are the printing specifications that you will need to provide to the printer for them to be able to quote accurately.

## Posters

- > A3 or A4 size
- > full colour
- > printed single sided
- > 180gsm on satin OR 150gsm on Grange (uncoated stock)

## DL Brochures

- > A4 folded to DL
- > full colour
- > printed double sided
- > 150gsm on satin OR 120gsm on Grange (uncoated stock)

## Stickers

- > As printer for print recommendation

**Please note: SA Health is not responsible for the quality of printing provided by independent printers. The information in this document is a guide only and is not intended to be specific advice for individual situations.**
